01 Executive summary

One partner, two countries, one clear system

Elite Group was founded in 2017. Over the previous seven years, we have seen the company develop from a small civil-works company into a fully-fledged general contracting corporation with a big portfolio, a solid financial position, and a major presence across a multitude of sectors. It built its Egypt back office from zero. Today the team has 25 people.

The model is simple. Elite pays a fixed fee per person. It sees the salaries' breakdown without any hidden fees.

Elite liked the model. So we brought the same idea to Saudi Arabia. There, Talent360 leads Elite's Human Capital Management. Elite also stopped worrying about the government platforms. They had caused Elite real problems before.

> The result: one partner, two countries, one clear system.

02 Client profile

Elite Group

Elite is committed to satisfying and exceeding its clients' expectations. The company's success is further supported by its top-notch engineering, administrative, and technical staff, who use state-of-the-art machinery and integrated support services.

Elite is continuously investing in the future to provide the Kingdom with up-to-date technology and expertise. Through this commitment, the company aims to align with the objectives of Saudi Vision 2030: a thriving economy, a vibrant society, and an ambitious nation.

03 The challenge

Four problems

Growth	Demand was rising. The team was too small to serve it.
Cost and time	Hiring engineers locally took a long time and cost a lot.
Control	The founder wanted clear numbers, no hidden margin, and full ownership of the team and the data.
Saudi HR	The government platforms (GOSI, Mudad, Qiwa, Ajeer, Muqeem) caused problems, e.g. delays, penalties and blocked services.

04 Our solution: two services, one partnership

The Egypt back office, and HR in Egypt and Saudi Arabia

Offshoring: building the Egypt back office

Fixed fee per person	Elite knows its monthly budget before it starts.
Full salary transparency	Elite sees every salary. There is no hidden margin.
Full flexibility	Elite can relocate any team member at any time, subject to the applicable relocation terms.
Data protection	An NDA safeguards data, designs, and client information, subject to applicable access controls and device policies.

HCM: running the people side in Egypt

Talent360 manages the people side, so Elite can focus on the work.

HCM scope: recruitment, onboarding, payroll calculations, compensation and benefits administration, employee relations and performance management administration.

HCM: the same model in Saudi Arabia

Elite saw the value in Egypt. So it asked us to lead its HR in Saudi Arabia too. Talent360 gives senior HR leadership, and an HR advisor does the daily work.

Operations	Recruitment, onboarding, payroll calculations, compensation and benefits administration, employee relations and performance management administration.
Government platforms	Oversight of GOSI, Mudad, Qiwa, Ajeer, and Muqeem. We fix issues fast and prevent new ones.
Governance	A monthly review with the founders and a bi-weekly check-in with the Strategic People and Business Partner.

05 Results

What changed for Elite

Team growth	From zero to 25 people.
Cost savings	40%
Budget certainty	A fixed fee per person, so no surprise costs.
Government platforms (hassle-free)	All platforms were handled by a specialised person.
Founder time (focused on business growth opportunities)	People operations were handled by Talent360, aligned with the founder.
Team retention and performance	Focusing on people's needs and requests, and building a healthy environment, increased their retention.

06 What Elite gave up (trade-offs)

A good case study is honest

Elite accepted three trade-offs:

Distance	The team is not in the same room. Elite invested in daily communication and clear reports.
Setup	The first months needed time for onboarding and knowledge transfer.
Trust	Elite gave HR and platform work to a partner. Clear governance made this safe.

07 Risks and how we controlled them

Five risks and their controls

Risk	Control
Data leak	NDA and access rules
Quality drop	Employee KPIs, appraisals and attendance tracking
Hidden costs	Fixed fee and salary transparency
Compliance gaps in Saudi Arabia	Talent360 oversight of all government platforms
Communication gap	Bi-weekly and monthly sync, and one point of contact

08 What this means for your company

One service or both

You can take one service or both. Here is how each Elite result fits your needs:

Elite got	You could get
Budget certainty	A clear cost per engineer, no surprises
Ownership and flexibility	Your project, your contract, your control
Fast scaling	Capacity for large Vision 2030 projects
HR handled by a partner	More time for design and clients
HCM (Human Capital Management)	HR leadership and oversight of GOSI, Mudad, Qiwa, Ajeer, and Muqeem
